

Simplify building access management. Leverage TrustHab's access control feature to efficiently and securely grant or revoke access for residents and non-resident visitors.

Secure, convenient access

Residents can use their smartphone to access their unit via the resident app

Avoid resident lockouts

Eliminate the risk of physical keys being misplaced or even stolen

Works with Amazon Alexa

Residents can enjoy the convenience of accessing their smart lock by voice command

Reset multiple locks, simultaneously

Staff can efficiently control and reset locks in bulk at the end of a resident's lease term – entirely remotely

Improved tracking and audit trails

View access history. Gain insight to who came and went through each door and when

Multiple lock options available

A user can access a lock via a PIN-entry or a physical key. Locks are tamper-resistant and easy to install

A robust, flexible reporting software that seamlessly integrates with multiple smart devices; including Door Locks, Smart Thermostats, Flood/Freeze Sensors, Smoke/CO Audio Sensors, Door/Window Sensors, Light Switches & Outlets.

ROI in as little as 9 months.
